

27 June 2025

To,
Nikhil Mundhra,
New York University Abu Dhabi,
Abu Dhabi, UAE

Sub: Recommendation Letter for a successful internship at ATIL.

As the Managing Head of the ATIL Office in Mukundpur, Delhi, I had the opportunity to closely observe Nikhil Mundhra during his internship with us. Nikhil came from a Computer Science background, yet he quickly adapted to the engineering-intensive environment of our office, a transition that many find challenging.

What stood out most was his initiative and intellectual curiosity. Under the mentorship of our team at the Mukundpur Metro Depot, New Delhi, Nikhil led a high-caliber research effort on **the testing and commissioning of RS17**. His work reflected a deep understanding of the subject matter and a rare ability to bridge the gap between software-driven thinking and engineering systems.

Nikhil demonstrated **maturity, clear communication, and an eagerness to contribute** beyond what was expected of him. His **adaptability, strong analytical mindset, and professionalism** made him a valued presence in the team.

I have no doubt that Nikhil will bring the same level of dedication and excellence to any opportunity he pursues. I wish him all the best for his future.

Best Regards,
